## Chapter 1 Introduction

This document outlines the classification codes used in:

- version 2.2 of the AddressBase technical specifications
- version 2.4 of the AddressBase Plus technical specifications
- version 2.5 of the AddressBase Premium technical specifications

Classifications are sourced from the Local Land and Property Gazetteers and from Ordnance Survey large scale data.

The following chapters show the classification of address objects that are in the AddressBase products identifying the highest level for AddressBase – residential and commercial and four levels in the AddressBase Plus and AddressBase Premium products.

These can be as high-level as commercial property or as detailed as a youth hostel.

### Example of a detailed classification

This is an example of how a classification can be structured in AddressBase Plus and Premium:

C	Commercial	H	Hotel/Motel/ Boarding/ Guest House	01	Boarding/Guest House/ Bed And Breakfast/Youth Hostel	Object defined by local government contributing authority, includes: Commercial Lodging.	YH	Youth Hostel
---	------------	---	--	----	--	---	----	-----------------
